

Using **OverDrive** eBooks with Nook

For First Time Use

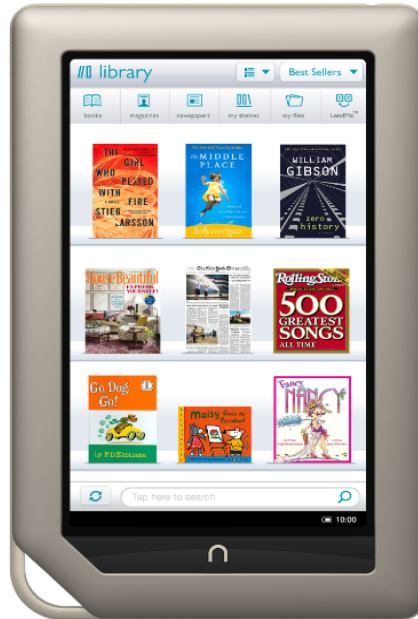

Visit westhavenlibrary.org, click the link for Overdrive.

Once in Overdrive navigate to bottom left column to access the Adobe Digital Editions software

Install the Adobe Digital Editions software.

After installation, authorize the Adobe Digital Editions software either anonymously or by creating an Adobe ID.

Install the Overdrive Media Console software

To Borrow materials

Go to westhavenlibrary.org and click on the link to Overdrive.

Select the material you'd like to take out, and make sure for a Nook eReader that the book says epub, pdf, or open epub next to it.

Select add to cart. If it says add to wishlist, this means it's checked out to another patron.

Once you have finished selecting books, click continue to Checkout. You will then be asked for your library card number.

Confirm Checkout. Click the download button, if prompted, choose to open file with Adobe Digital Editions.

Transfer items to your Nook

Be sure that you are able to find and open the borrowed eBook in the Adobe Digital Editions software.

Plug your Nook eReader into your computer with the usb cable.

Open Adobe Digital Editions, authorize Nook device when prompted.

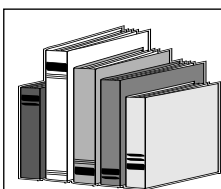

Find the items you want to transfer in your Adobe Digital Editions library.

Drag and drop the item onto listed Nook device in left column of Adobe Digital Editions.

Eject nook device in windows explorer before unplugging.
